

VIVREMV2 is not compatible with not V2 series of SIXFIVE amplifiers.

VIV
SIXFIVE SERIES
VIVREMV2

Memphis Audio's VIVREMV2 is a wireless remote bass control for VIV series amplifiers (mono and VIV1300.5V2 . VIVBELLE only). The VIVREMV2 is auto-programed to pair with your amplifier directly out of the box.

CHARGING/WIRING

Charging: Prior to paring the VIVREMV2 needs to be charged or hardwired into your electrical system. For 100% wire free operation the VIVREMV2 can be charged using the enclosed USB to USB-C (5V-12V) cable. Charging takes 4 hours. You will know the charge is complete when led turns OFF. On a full charge the VIVREMV2 will last aprox 3000 hours.

Hardwiring: To hardwire the VIVREMV2 to avoid having to charge the unit, use the USB-C to hardwire connection included in the box.

Tap the hardwire connection into your vehicles + / - electrical system and plug USB- C into your VIV-REM. If you are uncomfortable with this process please contact your local Memphis Audio retailer.

MOUNTING

Mounting: To mount the VIVREMV2 fasten the included clip onto the mounting surface. The VIVREMV2 is constructed with a unique design that allows it to be mounted horizontally or vertically. When mounting be sure not to drill into any existing electrical or sensitive equipment. Once the clip is mounted, slide the clip into the channel on the back of the VIVREMV2. Once in place the VIVREMV2 can easily be removed for charging by sliding it back off of the clip.

OPERATION

LED LIGHT: The LED light on the VIVREMV2 Will FLASH BLUE when the volume is turned up/down. It will maintain a SOLID BLUE color when the device is turned to volume MIN/MAX. If the light is SOLID RED it indicates the amplifier is in protect mode.

Short Press button: Mute/Short Press again to unmute.

EEPROM: The VIVREMV2 Features EEPROM to remember the last volume setting the amplifier was set to prior to powering down. When the system is turned on the VIVREMV2 will play the volume at the last setting used.

Long Press (5 seconds): Volume memory is cleared and volume is turned to MAX
