Your Home.

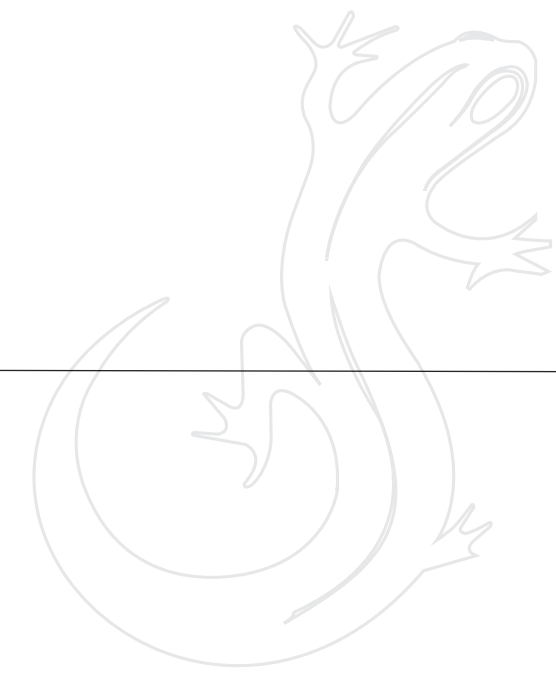

SALAMANDER
DESIGNS

Furniture for today's technology.

For nearly 30 years, Salamander Designs has been designing and manufacturing premium quality, highly customizable entertainment and technology furniture for residential and commercial spaces around the world. Each piece is handcrafted in the USA using the finest available luxury materials and is backed by a lifetime warranty.

Not seeing is believing.

Handcrafted designer furniture that makes the most of your technology. Everything you don't want to see is beautifully hidden out of sight. Customized to match your décor, components and lifestyle. Who knew smart furniture could also be striking? We did. Because that's what we've been doing for decades. Salamander Designs elevates entertainment spaces with furniture where each detail is carefully balanced to provide the perfect blend of form, function and design.

Handcrafted designer furniture that makes the most of your technology

Everything you don't want to see is beautifully hidden out of sight

Customized to match your décor, components and lifestyle

Out of sight by design.

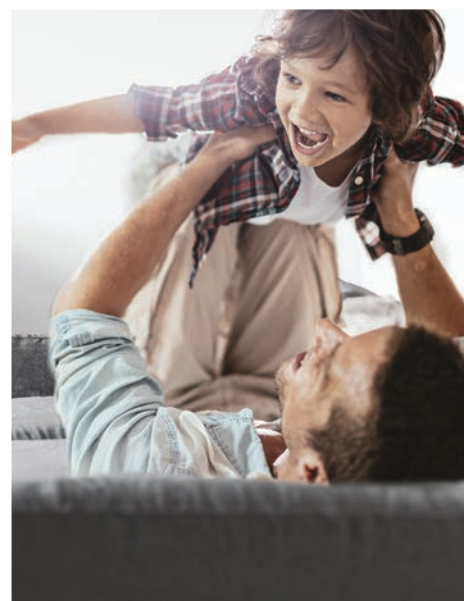

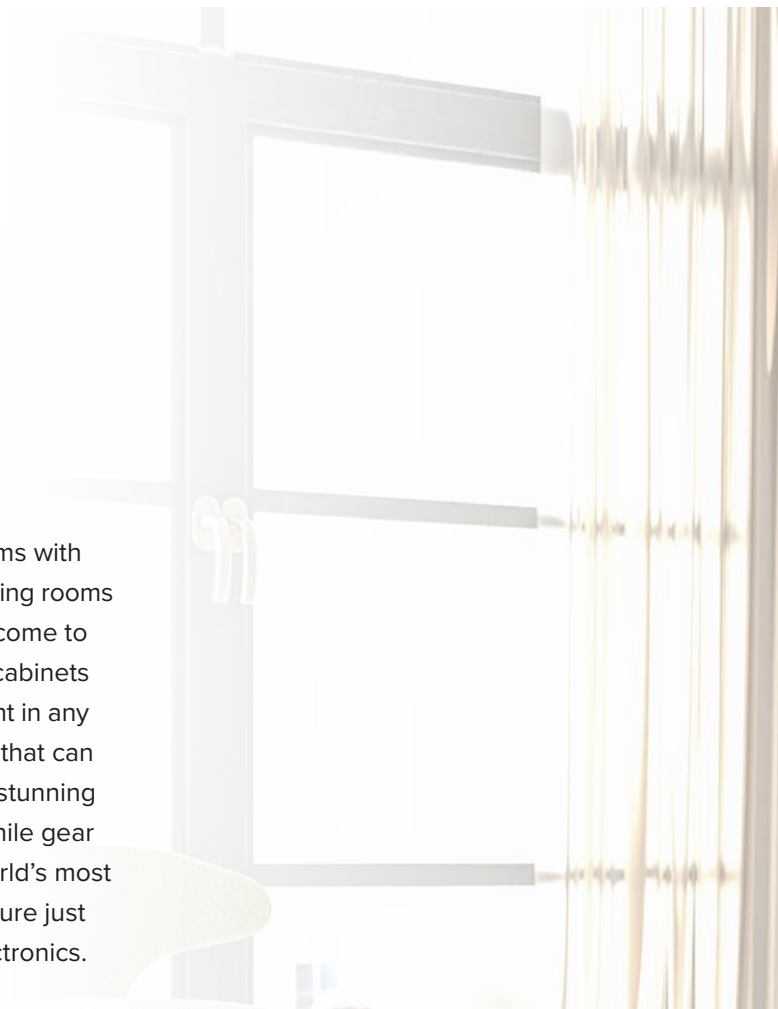

A beautiful home for all your technology, media and storage. That's what you get with Salamander. Your big screen, sound system, and media devices all work perfectly. Yet you see nothing but elegant handcrafted furniture – made just for you. No components, plugs or cables to obstruct your décor and design aesthetic. There's a place for everything inside a stunning Salamander piece. And it's all out of sight by design.

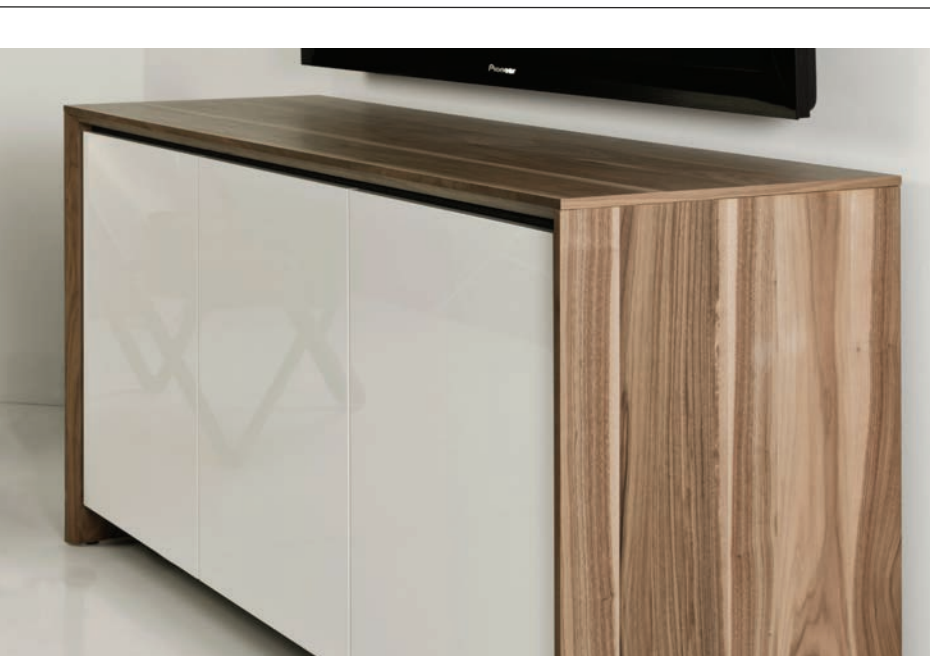

Every room deserves your story.

Turn ordinary rooms into elevated rooms with forward-thinking designs. Media and living rooms where gaming, TV, music and movies come to life. Floating on-wall or floor-standing cabinets that cleverly conceal your AV equipment in any space. Professional equipment stands that can be tucked away into closets – or be a stunning centerpiece to showcase your audiophile gear in a music listening room. Even the world's most innovative, slim AV cabinets that measure just 12-inches deep that hide and cool electronics.

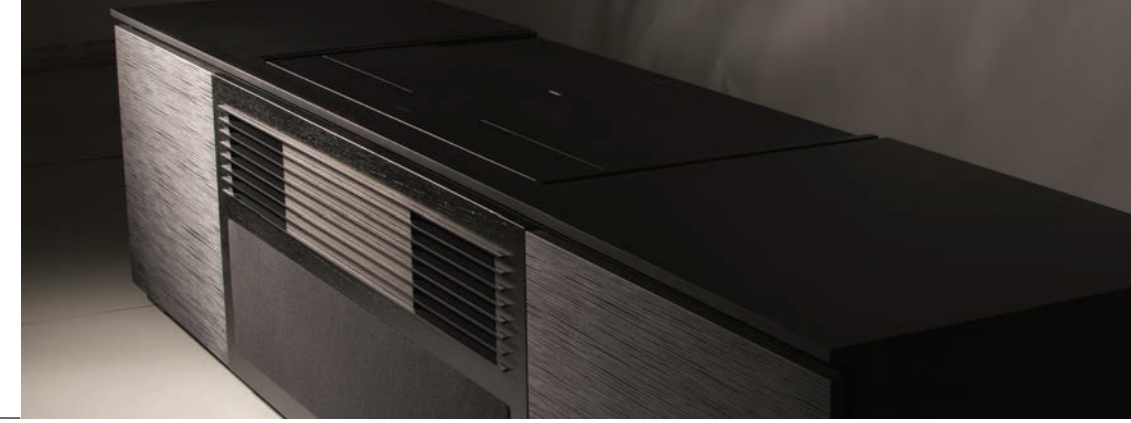

Transform living spaces.

Whether you live in a majestic modern, transitional traditional or chic condo, there's a Salamander solution for every size, style and space. Bring home the ultimate expression of how you wish to enjoy electronics. From elegant media cabinets for every room, to comfy single seats in the den, to regal row seats in the ultimate home theater, we manufacture it for you. Each piece is handcrafted and built-to-order in the USA with luxury materials to take your residence – and entertainment – to a whole new level.

Engaging media rooms.

Living and media rooms are where families gather around entertainment including movies, gaming, favorite sports and shows. Our integrated cabinets outfit all popular brand projectors, providing a seamless solution while eliminating need to cut into ceilings. Match custom cabinets with luxurious seating – and ottomans that double as jump seats for more guests.

Customized seating and projector cabinets match décor while hiding components and providing proper ventilation

Audiophile music rooms.

There are times the audiophile-quality turntable, loudspeakers and components are so special, you want them featured. We offer exceptional, artful furniture that turns a hi-fidelity system into a show-stopping centerpiece. Choose from rich, real woods, smoked-glass or perforated-steel doors, custom footing and the finest elements available. With high-powered electronics, the need for serious ventilation is vital – and only solved by Salamander.

Audiophile music rooms.

Music is personal and emotional. Listening areas may be a devoted sanctuary room for relaxation, or open for everyday life, parties and concert experiences. High-style media furniture accommodates it all. Our innovative Archetype System™ makes music the center of attention with an infinitely adjustable shelving system for AV gear. This audiophile favorite expands and forever brings visibility and easy access to electronics.

Flexible, open-air media furniture with several wood, shelving and color options

Threaded, industrial style, steel support rods and matching fasteners make shelves fully adjustable

Electronics become the centerpiece with easy access and ability to add shelves for new pieces in the future

High-performance home theaters.

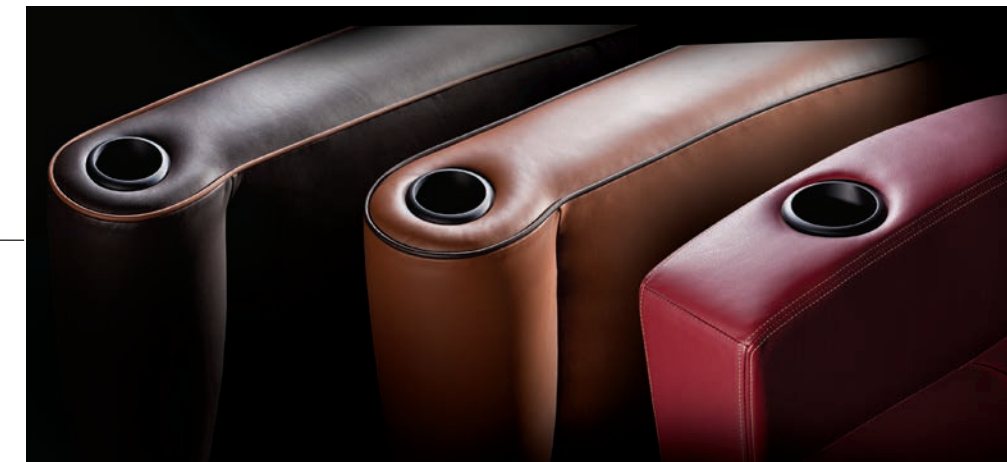

Just say WOW. Home Theaters are designed to deliver that fully immersive cinematic experience. A supporting cast of furniture is crucial to enhance the environment, comfort and technology. Our pro equipment racks and stands house equipment – in the open or behind the scenes. Premium casters lend easy movement for service while pro-grade ventilation makes the magic happen.

Professional grade equipment racks and stands support all the technology for today's home theaters

Fully customizable, luxury theater seating is ergonomically designed and offers premium construction, recliners and head, lumbar and foot comfort

Extensive designer choice in seating and rack colors, styles, materials and accessories

High-performance home theaters.

A modern setup may serve multiple purposes including home theater, gatherings and fun activities while shows are on in the background. These rooms are ideal for a more casual approach with custom entertainment couches for conversation, ottomans and an AV cabinet to store media, components and even a built-in refrigerator for cold drinks.

Comfy couches and jump seats enable casual, open conversation and activities while the movie plays

Store media, books, technology and even cold drinks in designer AV cabinets with built-in refrigerators

Accentuate your style with personalized details including custom fabrics, cup holders and more

A home that works for you and everyone.

Today we have more technology with increased working and learning from home. Our adaptable Huddle@Home™ furniture perfectly positions high-performance displays, cameras, sound bars and other equipment to maximize engagement. Our furniture systems come in many woods, colors and configurations to match your home office. Now connect and collaborate in an instant – in style.

Extraordinary custom spaces.

Entertainment enthusiasts turn to us for precisely personalized furniture to fit any space, even the highly unusual. Our custom designs adapt and can elevate extraordinary, striking spaces with unique challenges such as large glass windows, room divider considerations and enormous open walls.

Cabinets engineered in virtually any size, including dual-sided cabinetry

Make the most of your own original, unique environment and style

Bring home the ultimate expression of you.

At Salamander, we can match your personal passions, vision and décor with our expert design team and unique build-to-order formula. Each piece is customized to suit with the finest available luxury materials and styles. As the furniture brand of choice for companies like Sony, LG, Epson, Microsoft and others, we understand exactly what it takes to maximize performance, simplicity and aesthetics to help take your home — and technology — to a whole new level.

“ We loved that we were able to design and receive exactly what we wanted for our new family media room – in under two weeks. No other custom furniture company we engaged with was able to fit our space vision and timeline. A big thanks to Salamander!”

— SONDRAP., NY, NY

The Salamander difference.

At Salamander Designs, we devote our hearts and talents to sculpting every piece of beautiful furniture with hand-crafted detail right in Bloomfield Connecticut. Each system is personalized to integrate with modern lifestyles and the latest technology. While inspired and shaped by the unique needs of the individual customer, we always build with sustainability at the forefront of our minds.

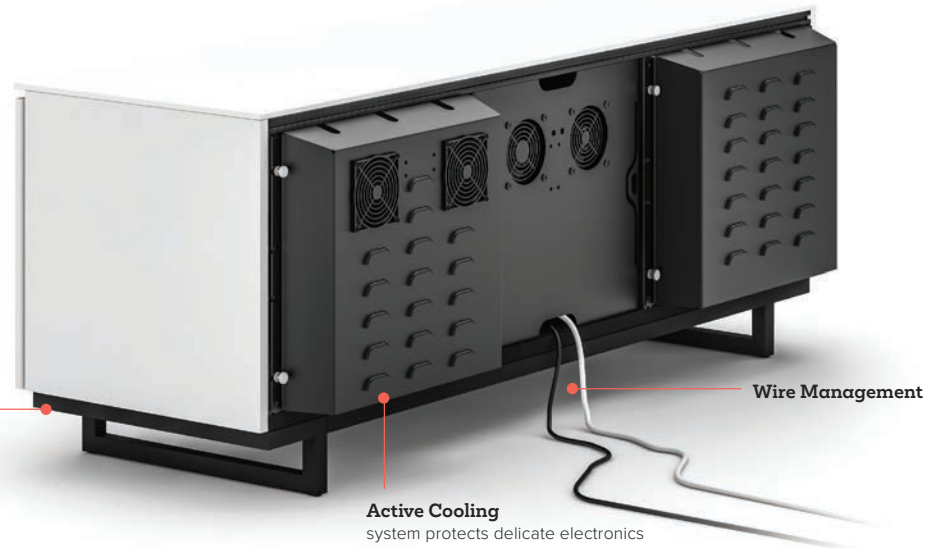

“ It’s a unique way of looking at furniture design. Instead of ‘one-size-fits-all’ everyone gets exactly what fits them. It’s furniture shaped by your needs.
SALVATORE CARRABBA — FOUNDER

Possibilities with Salamander Designs.

We understand that one size does not fit all. You may prefer a sleek contemporary look, a traditional look, or something in between. That's why we provide choice. You can select from our most popular pieces, or design furniture to match your décor and aesthetic perfectly. With our unlimited options, styles, materials and accessories, you can get a premium, custom cabinet solution designed for you in days - not months. Let's start designing your own original today.
