### Bluetooth Connection Operation

Turn on to enter the Bluetooth mode. Then turn on the mobile Bluetooth and search the Bluetooth name of the speaker or find a string of digital code for pairing. If there is a prompt to pair the password, please enter "0000" and click confirm connection.

### Bluetooth Internal Recording Operation

1. Insert SD card or Flash Drive then switch to Bluetooth mode
2. After connecting to Bluetooth, the mobile phone will play the music
3. Insert in a wired microphone or turn on a wireless microphone.
4. Short press the record button, the Bluetooth internal recording starts to work, and then short press the record button to finish the internal recording and start to play the internal recording file.

### TWS Connection Operation

1. When in Bluetooth mode, turn on the two Bluetooth speaker devices at the same time, and then turn on any one speaker and short press TWS key to pair with another speaker to connect, long press to disconnect TWS.
2. The optimal connection distance between two Bluetooth speakers is about 5 meters.

### Charging Instruction

1. To protect the performance of the battery, avoid using the machine while charging.
2. Note: The machine has no power bank function, it is forbidden to connect other devices through the USB interface.
3. Please use 12V/9V 1.5A adapter (which this machine comes with) for charging the battery, the red light is on when charging, the red light is off when fully charged and the green light is on.

### Remote Schematic Diagram and Operation Instructions

1. Under normal circumstances, the remote control should be used within the receiving range of about 6 meters and 30 degrees from the device receiving window.
2. When operating the remote, please aim it at the receiving window of the device. There should be no obstacles between the remote and the device.
3. If the receiving window of the device is placed under a strong light, the operation panel of the remote may malfunction. In this case, please move the device away to avoid direct exposure.
4. When the remote has no battery, you can replace the No. 7 battery to avoid mixing old and new batteries. Please check the remote batteries regularly to see if they need to be replaced.

### Wireless Microphone Operation

1. Long press to power ON/OFF.
2. When the microphone is not connected to the device, the display will flicker slowly. When the microphone is successfully connected to the device, the display screen will stop flashing and display a steady state. The display blinks quickly when the battery is low.
3. When wireless microphone battery is dead, you can twist the microphone to the left, and replace the No.5 AA battery. Please pay attention to the positive and negative poles when replacing the battery.
4. Howling: Please do not put the microphone close to the speaker device. Please try to put the microphone away from or the back of the speaker device, or try to turn down the volume of microphone.
5. Low microphone volume/No microphone volume: Please make sure the microphone volume is turned up to the maximum.

### Troubleshooting

1. **Automatically shuts down when turned on**  
The battery is low, please fully charge it before use.
2. **The player automatically shuts down or restarts**  
The battery is low, please fully charge it before use.
3. **The charging light is not on, not charging**  
Make sure the adapter wire is plugged in and not damaged and normal, please use 12V/9V-1.5A adapter to charge the speaker.
4. **Bluetooth status is silent**  
Please make sure the Bluetooth is paired correctly, that the Bluetooth device is playing, and that the volume is not at the minimum.
5. **SD card/Flash Drive playback is silent**  
Check whether the SD card is inserted in the correct direction and in place, whether the Flash Drive is inserted in place or in good contact; whether the music format in the SD card or Flash Drive is correct (Note: The music in the SD card/Flash Drive mainly supports MP3 compressed audio files and WMA lossless audio files playback); whether the device volume is adjusted to the minimum.
6. **Recording doesn't work**  
Make sure that there is space in the SD card or Flash Drive delete some files to make space. Recording should be in SD card mode, UFlash Drive mode and insert a wired microphone or turn on wireless microphone.

### 7. The recording cannot be deleted
