

# VEGA SERIES UNDERSEAT ENCLOSURES

## VPAS12

12" Vega Series Compact *Powered* Subwoofer with *Passive* Radiator

### ONE SHEET

Enhance your vehicle's audio system with the Cerwin-Vega VPAS12 12" Compact Powered Subwoofer with Passive Radiator, designed to deliver deep, powerful bass in a compact and space-saving design. Perfect for drivers who want strong low-frequency performance without sacrificing valuable interior space, the VPAS12 offers an all-in-one bass solution that easily integrates into factory or aftermarket car audio systems.

The VPAS12 powered subwoofer features a 12-inch subwoofer paired with a passive radiator, creating a highly efficient bass system that produces deeper and more impactful low frequencies. This innovative design improves bass response while maintaining a compact enclosure size, making it ideal for vehicles where space is limited.
