## XE12DV

### 12" XED Series Dual Vented Subwoofer Enclosure

#### ONE SHEET

Experience powerful, room-shaking bass with the Cerwin-Vega XE12DV Dual 12" Loaded Vented Enclosure, a high-performance subwoofer system designed for serious car audio enthusiasts who demand deep bass and high output performance. Built with Cerwin-Vega's legendary engineering and audio heritage, this dual 12-inch subwoofer enclosure delivers the punch, clarity, and reliability needed to transform your vehicle's sound system.

The Cerwin-Vega XE12DV subwoofer enclosure features two high-performance 12-inch XED Series subwoofers, engineered to produce powerful low-frequency output while maintaining excellent sound clarity. These subwoofers are designed to handle substantial power, allowing them to deliver tight, hard-hitting bass without distortion, even during high-volume listening.
