

KIN
KIN BY TOTEM

The incredible KIN Amp is now ready to take on the Custom installation world. New features include auto-on, auto input sensing, and a mini jack bypass input that converts it from an integrated amp to a power amp. That means KIN Amp can now be easily connected and controlled by popular 3rd party streaming devices (like Sonos), in and various other custom applications. We even added a headphone jack so you can rock out and not disturb the neighbors.

PCM), AIF, AIFC

AMP IN is a feature that allows you to connect an external wifi streamer or audio source directly to the power amplifier, bypassing the internal preamp. This can add WIFI capability for multi room and provide more flexibility in your audio setup like waking up your KIN AMP and volume control from your streamer app.

The **KIN AMP** is pure Totem in every way. It's timeless design is both simple and sophisticated. Conveniently sized to fit just about anywhere. Though diminutive in stature, it can thoroughly power a number of Totem monitors and towers and fully energize any room. Simply pair the **KIN AMP** with the world's most popular sources and mobile devices and begin enjoying your music. Equipped with **Bluetooth and aptx HD for instant wireless streaming**. The analog and digital inputs allow for a variety of sources to be connected; from classic turntables to the latest gaming consoles. We recognize the challenge that certain sources and/or recording create and this is why we have equipped the **NEW KIN AMP** with both bass and treble controls, easily accessible from the remote control, allowing the listener to customize their sound.

New Added feature: 3.5mm

headphone jack.
