

KLIPSCH MIAMI

MUSIC CITY PARTY SPEAKER

HOT NIGHTS, COOL TUNES

Paul W. Klipsch passed down the gift of horn-loaded tech so party people could get the most powerful and clearest sound possible. The Klipsch Miami combines that same proprietary engineering with a highly efficient horn-loaded compression tweeter, dual 5.25" woofers, and Tractrix flared front ports - for an unforgettable sound that will drive your dance floor.

VOLTAGE FOR LONG-LASTING VIBES

The Klipsch Miami was built for the vitality of the very best bashes. With up to 18 hours of playback time after just 2 1/2 hours charging up, we're a little worried you might run out of music.

NEXT-LEVEL LUMINOSITY

Big sound comes with a bangin' light show thanks to RGB lighting in a variety of patterns and colors. App-controlled presets dazzle the front and sides of your new Klipsch Miami.

DELIGHTERS FOR DJ'S

The Klipsch Miami was built with professional party people in mind. Pole mounts, wheels, and handles take your show on the road with style and ease thanks to thoughtful engineering. Bonus: we've included buttons for DJ sound effects so you can airhorn, scratch, and applaud to pump up the crowd.

LEVEL UP WITH PARTY LINK

Connect multiple Klipsch Music City Speakers via Party Link by simply pressing the Link Button on your speaker or within the Klipsch Connect Plus app. We like to think of it as *Pissing Off The Neighbors Mode* - debauchery not included. For now!

BOOSTED BASS FOR YOUR BEST BEATS

Crank up those low frequencies and buckle up because your Klipsch Miami comes with built-in Ultra Bass mode. Just hit the button on your speaker or customize EQ settings in-app to deepen those drops and shake the place.

SING, SHRED, OR SNARE

Thanks to built-in microphone and 1/4" instrument input, your new Klipsch Miami is your new go-to for karaoke nights and jam sessions. Further customize your experience with bass, treble, and echo adjustments.

YOU'RE IN CONTROL

The Klipsch Connect Plus app (available free in the app store) allows you to customize EQ settings, light patterns, DJ buttons, and more with just a few clicks.
